It's the essence of  
a good wine.

### Neleman Nucli Tinto

**Grapes:** tempranillo, syrah, petit verdot

**Country/region:** Spain, La Mancha

**Alcohol:** 13%

**Certified:** Organic & Vegan

**Stopper:** Helix

## Design & Neleman

Neleman loves design. All our wines tell a different story and the design is an integral part of that. At this moment we already work together with young and promising designers from 6 different countries: Brazil, Germany, Greece, Netherlands, Poland & Spain.

Three young female designers who studied at Elsiiva Barcelona designed Nucli. In the meanwhile, they have finished their education and work for renowned design studios.

Their names are: Andrea Ribera, Maria Romero & Cristina Castells Mascaró.

Neleman is an initiative from Dutchman and successful wine entrepreneur Derrick Neleman (40). He makes his organic wines together with friends in Valencia. Neleman stands for a combination of northern brains and southern passion. All wines are organic, vegan friendly & CO2-omission free.
